Summary

A versatile full-stack developer with 1 year of experience and a strong inclination towards backend systems. Proficient in Python (Django) and JavaScript (React), with a solid understanding of database management with PostgreSQL and cloud deployment on AWS. A collaborative team player experienced with Agile methodologies and Git.

Experience

Junior Full-Stack Developer | Verto Digital | June 2024 - Present

- Contributed to both the frontend (React) and backend (Python/Django) of a client-facing web application.
- Developed new REST API endpoints and optimized existing ones for performance.
- Managed database migrations and wrote SQL queries for the PostgreSQL database.
- Used Docker for local development environment consistency.
- Deployed applications on AWS Elastic Beanstalk.
- Participated in all phases of the Agile development lifecycle, from planning to deployment.

Education

Bachelor of Arts in Computer Science | Liberal Arts College | 2024
