Job Description: Software Engineer

About the Role

We are seeking a motivated and talented Software Engineer to join our dynamic team. In this entry-level position, you will have the opportunity to design and build scalable APIs, manage databases, and contribute to the development of innovative software solutions. This role is ideal for recent graduates or individuals with up to one year of experience who are eager to learn and grow in a collaborative environment. You will work closely with both backend and frontend teams, ensuring seamless integration and functionality across our platforms.

Key Responsibilities

- Design and develop scalable APIs to support various applications and services.
- Manage and optimize database systems, ensuring data integrity and performance.
- Mentor junior engineers, providing guidance and support in their professional development.
- Lead code reviews to maintain high-quality code standards and foster best practices within the team.
- Collaborate with frontend teams to ensure cohesive and efficient integration of backend services.

Required Qualifications

- Proficiency in Python and experience with FastAPI for building web applications.
- Familiarity with SQL, particularly PostgreSQL, for database management and querying.
- Understanding of containerization technologies such as Docker and orchestration tools like Kubernetes.
- Basic knowledge of cloud services, specifically AWS, for deploying and managing applications.
- Experience with CI/CD practices to streamline development and deployment processes.

Preferred Qualifications

- A degree in Computer Science, Software Engineering, or a related field.
- Experience with version control systems, particularly Git.
- Exposure to Agile methodologies and collaborative software development practices.
- Strong problem-solving skills and a passion for technology and innovation.

Why You'll Love Working With Us

At our company, we foster a culture of collaboration and continuous learning. You will have the opportunity to work alongside experienced professionals who are dedicated to mentoring and supporting your growth. We believe in empowering our employees to take initiative and contribute to meaningful projects that make a difference. Join us and be part of a forward-thinking team that values innovation, creativity, and excellence.
