(223) 344-5566 | emma.j@email.com | LinkedIn | GitHub

Summary

Backend developer with one year of experience in building microservices with Go. Strong understanding of API design, database systems (SQL), and containerization. Proficient in Python as a secondary language and eager to apply my backend expertise to a Python-based stack.

Experience

Software Engineer I | Logicflow Inc. | June 2024 - Present

- Develop high-performance microservices using Go (Golang).
- Interact with PostgreSQL and Cassandra databases.
- Write clean, maintainable, and well-tested code.
- Use Docker to containerize services for deployment.
- Contribute to a CI/CD process for automated deployments.
- Use Python for occasional scripting and internal tooling.

Education

Bachelor of Science in Computer Science | University of Engineering | 2024

Skills

- **Languages:** Go (Golang), Python, SQL
- **Databases:** PostgreSQL, Cassandra
- **Tools:** Docker, Git, Kafka
- **Concepts:** Microservices, REST APIs, Distributed Systems
