Job Description: AI/ML Engineer

About the Role

We are seeking a motivated and talented AI/ML Engineer to join our dynamic team. In this role, you will have the opportunity to work on cutting-edge projects that leverage artificial intelligence and machine learning technologies. You will play a crucial part in designing and building scalable APIs and managing databases, while also contributing to the growth of our engineering team by mentoring junior engineers. This is an excellent opportunity for individuals with 0-1 years of experience who are eager to develop their skills in a fast-paced, innovative environment.

Key Responsibilities

- Design and build scalable APIs to support various applications and services.
- Manage and optimize database systems to ensure efficient data storage and retrieval.
- Mentor junior engineers, providing guidance and support in their professional development.
- Lead code reviews to maintain high standards of code quality and best practices.
- Collaborate with cross-functional teams to understand project requirements and deliver effective solutions.

Required Qualifications

- Proficiency in Python programming language.
- Familiarity with SQL for database management and querying.
- Basic understanding of computer vision concepts and technologies.
- Experience with Langchain and OpenCV is a plus.
- Strong problem-solving skills and the ability to work independently as well as part of a team.

Preferred Qualifications

- A degree in Computer Science, Engineering, or a related field.
- Internship or project experience in AI/ML or software development.
- Knowledge of machine learning frameworks and libraries.
- Excellent communication skills, with the ability to articulate technical concepts to non-technical stakeholders.

Why You'll Love Working With Us

At our company, we foster a collaborative environment where innovation thrives. You will have the opportunity to work alongside industry experts and contribute to meaningful projects that make a difference. We value continuous learning and professional growth, providing you with the resources and support needed to advance your career in the tech industry. Join us and be part of a team that is shaping the future of technology!
