Summary

A software engineer with a year of experience developing backend solutions. Strong proficiency in Python and web frameworks like Flask, with extensive experience in managing PostgreSQL databases. Comfortable with containerization using Docker and deploying applications on AWS. A collaborative team player with experience in Agile development.

Experience

Associate Software Engineer | Enterprise Solutions Co. | July 2024 - Present

- Developed REST APIs for an internal business application using Python and Flask.
- Responsible for database schema design and management on a PostgreSQL server.
- Wrote unit and integration tests to ensure the reliability of backend services.
- Containerized applications using Docker for simplified deployment.
- Deployed services to AWS EC2 and RDS, participating in the full development lifecycle.
- Gained exposure to Kubernetes through internal training workshops.

Education

Bachelor of Science in Computer Science | State Technical University | 2024

Skills

- **Languages:** Python, SQL, Go (Beginner)
- **Frameworks:** Flask, SQLAlchemy
- **Databases:** PostgreSQL
- **Cloud/DevOps:** AWS (EC2, S3, RDS), Docker, CI/CD (Basic)
- **Version Control:** Git
- **Methodologies:** Agile
